

Prove your programming talent at the 100th₂

Helvetic Coding Contest

March 16 at EPFL, Lausanne

ADNOVUM

systems

One beautiful day in March, Heidi (the Coding Cow) bid her friends farewell. She set out on a journey to explore the magnificent cyberspace. Light rays of uncountable transmissions sped past her as she followed the fiberglass, wondering what wonders this network would reveal. But then, something terrible happened...

The Helvetic Coding Contest is Switzerland's greatest programming competition, on March 16 at EPFL.

In a team of 2 or 3 young people, you quickly solve as many challenges as possible, each time writing a short program in C, C++ or Java.

There are great people, lots of fun, and amazing prizes.

Register now and save our mascot Heidi!
